### Proforma for the Request of Funds for Research from the Charity Trustees – Above & Beyond

Money held by Above & Beyond on behalf of researchers must be used to support high quality, appropriately approved, patient focussed research. Therefore, before the Charity Trustees are able to release funds researchers are requested to seek confirmation from UHBristol's R&D Office that the research project is registered with R&D and that it has received all the necessary regulatory approvals.

If your research study has not yet started and you are seeking funds to support pre-protocol work, please discuss this with R&D on 0117 342 0233.
